

Dear Antonio:

We would like to update you on some very exciting news at NTZ. On January 17th 2017, the key management team of NTZ completed a management buy-out of certain assets from its parent company to acquire NTZ Micro Filtration, Inc. (in the USA) and the complete aftermarket line of NTZ Nederland BV. The name of the company will change to **NTF** Micro Filtration, Inc. (in the USA) and NTF Filter B.V. (Rotterdam).

As part of this agreement, we have secured the exclusive rights of all of the aftermarket product line and the associated elements for oil, fuel and Hydraulic use, so there will be no interruption of supply to you and your customers.

The company will be led by the same executive team and staff members. Our address will also remain unchanged in the USA, but the Rotterdam address has changed to:

NTF Filter BV  
Kiotoweg 47  
Rotterdam 3047BG  
Telephone: 010 – 313 83 00

In addition, we have launched our new website with updated information about the full scope of products and capabilities NTF offers to the filtration industry. The web address is [www.ntf-filter.com](http://www.ntf-filter.com)

We are very enthusiastic about what this means for the future of the company, its products, and our customers, as demand for specialized filtration products continue to grow in the automotive industry.

We hereby, confirm that PLUNO S.A. is our official representative for the Caribbean, Central and South America and no other organization, not appointed by PLUNO as Distributor, is authorized to sell our products and parts in these regions.

These are exciting times for us and we would like to thank you for your continued business.

We will be in touch with you personally to provide all the details.

Kind Regards,
